

EW 100-UVGI Ergonomic Workstation and Keyboard Sanitizer

EW 100-UGVI Workstations

The EW 100-UGVI Workstations are ergonomically designed computer workstations that incorporate a pull out drawer with ultraviolet lamps to sanitize the keyboard and prevent the spread of infectious germs. The workstations provide unparalleled comfort and productivity in the viewing and interpretation of Radiology PACS images.

The workstation manufacture incorporates a heavy gauge steel frame with a powder coat painted finish. The result is product durability and outstanding aesthetics. An abundance of counter space for keyboards, up to four monitors, and other ancillary equipment.

Features

Individually controlled motorized desktops:

Motorized desktop travels up and down and allow adjustment to the optimal working height of the keyboard/workdesk in relation to the optimal viewing height of the computer monitors. Height adjustment switches are conveniently located under the work surface. Vertical travel range is 28-47 inches.

Indirect lighting:

Carefully positioned lights under the work surface provide adjustable ambient illumination to attain proper background lighting while minimizing eye fatigue.

Base bracket for a personal computer:

A optional support tray for the CPU is conveniently located on the base of the workstation, protecting the CPU, maximizing leg room, and freeing up workspace. An optional second tray is available for multiple computers.

Power outlets:

Two convenient power strips (12) outlets are incorporated into the unit for dictation equipment or other auxiliary power requirements.

Cable management system:

Cables are carefully routed to keep them unobtrusive, prevent cable clutter, and protect the user.

Options

- Ultraviolet germicidal irradiation keyboard sanitizer Patent pending
- Monitor arms (Adjustable or Fixed)
- Computerized control of desk heights with programmable presets and LED display. Comfortable desk heights for different individuals, whether standing or sitting, can be automatically programmed into the unit's memory. The radiologist need only select his corresponding preset, and the unit will return to the previously selected heights.
- Ambient lighting presets allow the user to select one of 5 fixed ambient lighting settings.
- Mounting brackets for accommodating up to a four bank X-Ray film illuminator for the concomitant review of previous hard copy images.

Dual Tier Tables

1100-248 Dual 48 in table with vertical travel switch
1100-249 Dual 48 in table with 4-position switch
1100-250 Dual 48 in table with 4-position switch & LED
1100-260 Dual 60 in table with vertical travel switch
1100-261 Dual 60 in table with 4-position travel switch
1100-262 Dual 60 in table with 4-position switch & LED
1100-272 Dual 72 in table with vertical travel switch
1100-273 Dual 72 in table with 4-position switch
1100-274 Dual 72 in table with 4-position switch & LED

Single Tier Tables

1100-148 Single 48 in table with vertical travel switch
1100-149 Single 48 in table with 4-position switch
1100-150 Single 48 in table with 4-position switch & LED
1100-160 Single 60 in table with vertical travel switch
1100-161 Single 60 in table with 4-position travel switch
1100-162 Single 60 in table with 4-position switch & LED
1100-172 Single 72 in table with vertical travel switch
1100-173 Single 72 in table with 4-position switch
1100-174 Single 72 in table with 4-position switch & LED

Accessories Options

1100-851 Germicidal Drawer *Patent pending
1100-300 Optional back light kit
1100-401 Optional left-sided secondary CPU tray
GR800020 Under table keyboard and mouse drawer

Pole Accessories:

1100-501 14 inch accessory pole desk clamp mount to accommodate monitor mounts
1100-504 36 inch accessory pole desk clamp mount to accommodate monitor mounts and multiple stacked illuminators
1100-601 Phone storage shelf (height adjustable for user convenience with desk clamp)

Monitor Mounts:

1100-712 Dual monitor mount
1100-713 Triple array monitor mount
1100-811 LED task light with magnifier
1100-812 LED task light without magnifier
